Noise Pollution

A Tribute to AC/DC

noise poll

About

Some things in life just keep giving year after year. In the rock n' roll world, it is the music of AC/DC. From the early days with Bon Scott to the modern era with Brian Johnson, AC/DC delivers the goods. Pure and simple.

AC/DC fans can celebrate because Noise Pollution pays tribute to the Aussie heavy weights of rock n' roll. Based in San Diego, Noise Pollution delivers an amazing replication of the AC/DC concert experience from both the Bon Scott and Brian Johnson periods. Fronted by Brian Brown on vocals and Curt Fischer on lead guitar, Noise Pollution presents a chronological look into the music of AC/DC. Because of the monumental nature of AC/DC vocals and guitar work, this is a rare and impressive accomplishment.

Noise Pollution has performed for hundreds of thousands of AC/DC fans over the past 8 years. Noise Pollution performs the hits from both the Bon Scott and Brian Johnson eras while guiding audiences through an unforgettable AC/DC experience. The band is professional in their respect for the music and their performance. CBS Los Angeles has declared Noise Pollution "one of the best you'll find." "Noise Pollution nails the sound and the energy of an AC/DC performance." KCAL 96.7 FM called Noise Pollution, "The band that totally, completely kicks ass." KMMT 106.5 FM, "Noise Pollution is one of the greatest AC/DC tribute bands to ever walk the face of the planet".

From coast to coast in the USA and from Canada to Latin America internationally, Noise Pollution has been performing audience friendly shows to sold out crowds at premier venues throughout the Western Hemisphere.
