

## Technical Rider & Stage Plan

Thank you for your interest in booking a show with The Cougrzz. Below is a list of our technical requirements. We designed this rider for optimum effectiveness on the day of the show. If there are any questions or if you have trouble providing any of the below mentioned, please get in touch with us before the day of the show and we will work out a solution.

Our stage setup is:

- 5 Vocals
- 2 Electric Guitars
- 1 Bass Guitar
- 2 Keyboards (stacked)
- 1 Saxophone
- 1 timbale set up
- 1 Drumset

We assume that there is a well sized PA system provided for the concert room with sufficient power to supply a clean and undistorted 110dB SPL RMS to the mixing board and a powerful and feedback-proof monitor system. It is very important that the singers and the drummer each have their own monitor speakers with separate mixes. For venues over 300 people we will need two extra monitors for the guitar players and two sidefills for really large venues.
