Notes:

- BBR travels with their own IEM system with 15' split snake, mics, cables, stands and DI boxes.
- BBR carries a supplemental lighting package run from stage including two projectors with screens.
- If available, band would like to plug into any in-house video systems for the show.
- There must be parking available for a 10 passenger van with full trailer near the load in area.

If BBR FOH Engineer is NOT Present:

-FOH console must be capable of 16 channels and a capable/sober FOH engineer must be provided.
